“ *Being her son, I don't have just one memory. Most of the memories I have though are of her with that big smile she always had. I don't think she ever got angry or stayed upset very long...I should know, I may have caused her to wipe the smile from her face a time or two... I always get asked why I am always smiling or how can I be in a good mood all the time....Well there is your answer....Well there is your answer, genetics. I picked up her good natured attitude and compassion for everyone around me. In her eyes, everyone else came first and then she would worry about herself. I hope that I carry that spirit with me for the rest of my life. Keep that smile going all day, everyday mom, it is contagious. I will continue in your footsteps and try to be as caring and compassionate as you were. Give Fishy papa and Big Dave a hug for me. Tell T-Rex if he messes with my fishing again I am coming for him. Take care of them and Merissa as well. I know you haven't stopped being a mother, you just have new kids to watch out for. I love you more than I ever told you and miss that smile of yours everyday. Until we see each other, Rest in Paradise, enjoy the Mudslides and enjoy the view. Love you to the moon and back!*
