“ *Laurel,*

We are so very, very sorry to learn of Doug's illness and passing this morning in the Tribune.

I have many fond memories of all the years working with him. He was truly a great boss and mentor as well as friend to his employees.

He knew how to treat his business clients. He took them salmon fishing on Lake Michigan! They loved it.

Doug was just so much fun!

David and I are saddened by the terrible news and send our condolences to you. Doug was far too young to be leave us.

Much love,

Jeanne and David
