“ *Everyone who knew Doug was aware of his very generous nature. Always willing to cover expenses, always willing to share his knowledge from his extensive reading and always willing to express his love for his darling Susan who was with him for a lifetime of love and who can argue with that. Doug was so generous to me during his life as well as at his departing from this earth, unexpected and generous like so much of his iconic personality and wit. I will never stop loving you Doug for your kindness at the end of your life and for your generosity for the over 15 years we were friends. Everyone I spoke with in Skokie Terrace is sad for your leaving us and expressed that his one true love, Sue will find peace and contentment in having a real, true love.*
