“ *My longtime childhood friend Elyse, "Lisa" as we all knew her then, has left me with many memories to laugh and reminisce over. More recently, we reconnected through a mutual friend at a high school reunion that brought us together once again. Elyse was fiercely independent and had a high spirit that was hard to catch up with. The best thing that could've ever happened to her was that she was indeed caught by Jim. Although my heart aches that she is gone from this world, Elyse left a strong imprint on those who knew and loved her. I was her friend as an adolescent and I like to think I was a friend to the end. Elyse will always be alive in my heart and I will always remember her in love. From Vikki Perez De Leon*
