“ I saved a letter Ernie wrote to me in 1983. I was his flight instructor then when I was 22 years old. He took the time to recognize me on my career path and complimented me on my abilities and that I was the most influential flight instructor he’s ever had. I’ve since retired as a Boeing 777-300ER captain with United airlines. People like Ernie helped shape the pilot and person I grew to be. I think we helped each other beyond that of student instructor. I am now reading this obituary because I was curious about him and wanted to tell him that I saved his most eloquent letter. I am now only learning of his passing. My condolences to all of his family. If anyone would like to see the letter he wrote that helped influence my personal life and career please reach out. I’m happy to share. My guess is that he shaped the lives of many young people....and old alike. My sincere condolences, Retired captain Michael P Lenihan. My email is mplenihan@gmail.com. Godspeed to Ernie.

“ Some of my favorite memories with Pop-pop are going to Montauk. The one memory I keep think of though is when we went to Montauk a few summers ago and stayed in that house and how every night all of us would sit around the dinning room table and played the game “Family”. But, everytime we played he could not get the concept of the game and he would cheat every single time it was so funny!

I remember when he got into your Aunt Kim's Facebook account and posted embarrassing but very funny posts. He was a very humorous man!! So sorry for your loss. I hope your memories find you all comfort at this sad time!

“ *I keep thinking about PopPop and how every time I saw him he'd be sitting at the table we were eating at, leaning back in his seat, legs crossed, hands out in front of him moving back and forth describing a juicy piece of meat he was about to eat. I think that's a pretty great way to remember him.*
