“ Gary was my brother-in-law. I enjoyed Gary's company, Gary and I had many common interest, computing and software, working with our hands, and many of the same political views, when together we could talk for hours. I am sorry to see him go, Gary and I are the same age and both of us have a few of the same ailments that make getting older a challenge. After he had been hospitalized, I spoke with him on his cell, at that point he still had hope, and his main concern was finding out about Eva, whom was in the same hospital. I knew that Gary was a force to be reckoned with so Mary Ann and I contacted the hospital and reported back to Gary about Eva's condition. This information seemed to give Gary some relief. For me knowing Gary went in with Covid-19, and hearing Gary going through Pneumonia, and then finally succumbing to a heart attack. Reminds me how fragile people are, I would never have thought it could affect him this way. This reinforces my thoughts on survival, having both vaccinations and still being at risk, reinforces in me the steps I must take to beat this virus. As soon as the Booster shot becomes available to me I will get it. Gary will be missed.
