“ *There are so many fond memories of Gloria - especially our years in college when we were both married and living in student housing. Gloria painted the kitchen but couldn't move the fridge and just painted around it. That was our inside joke for years - we would look at each other and laugh. Charlie was a toddler then and threw Ron's favorite pipe out the window. We searched University Blvd for an hour looking for that pipe and never found it. I'm so sad to learn of Gloria's death and send my condolences to her family.*
