“ *Six years. It feels like yesterday. There is still not a single moment that passes that you're not in my thoughts and my heart...*

Kat Diaz - March 01, 2017 at 10:37 AM

“ *3 years already... the time is passing but you are still in my thoughts. Not a week goes by... Thankfully some of the pain has been replaced with just a feeling of how lucky I was to know you the way I did. I can still hear your laugh.*

“ My Birthday is in 11 days, and it's just not the same without you. I am so depressed, but I dont want anyone to know. This is the only safe place for me to say what's on my mind. I miss you so much it's killing me. You are in my thoughts and my heart constantly. I try to smile and laugh and have a good time, but deep down I'm in pain. People are always asking "how are you doing?" and I lie and say "just fine." But I'm not fine, not even close. You will always be the love of my life, and oh how I miss love. Not much of a life now. So empty.

So I'll just keep on with my fake smile, my fake laughter and my fake friends who really have no idea.

Until I find you, again.

Not a single moment passes where my heart doesn't ache for you.The worst part about death, is trying to live though it.I've been told I don't have a healthy grasp on your passing, on the contrary, it has given me a better understanding of my own mortality.I am trying to live.However,I look forward to seeing your smile and holding you in my arms again.I love you Pupu...always.

“ It has been six months, twenty-five days, nine hours and forty one minutes since you passed away.I am missing you terribly, every second of every day.You are the best thing that has ever happened to me.Why? Why were you taken from me? As the tears roll down my cheeks, I am reminded of how amazing you are.You have changed me forever. I would give my life to hold you once again ,if only for a moment.The hole left in my soul after you left, I cannot fill, no matter how I try.I only find momentary happiness, then it fades as soon as the reality hits me that I don't have you to share it with.I catch myself constantly in the moment just before I yell out your name about something I want to share with you.We have an amazing love, and I thank you for that gift. xoxo
