“*Pepito, You were my little brother before I had a little brother and our childhood and youth spent together are full of wonderful memories and exciting adventures. What I remember most is that I never had more fun than when I was with you and never got into more trouble either. While you have passed from the physical realm you live on in our hearts and memories for your bigger than life spirit, spontaneous and fun loving personality and loving heart. I am comforted that you are now with your beloved father and sister Evelyn both of whom I loved dearly. Please look up abuela Ramona and take her fishing. The poor woman has been waiting forever for someone that loves fishing as much as she did. Heaven needs a "Fun Director" and I know no one better suited than you for the job. So please get the party started and ready for the day that I make the same journey! I will always remember you smiling and laughing and your joy for life. Until we meet again please know that you were much loved and will be missed greatly! Your loving cousin Albert*
