“ *To my mentor that taught me so much in a business that I knew very little about. The one that called me twice a day every day I was sick to make sure I was alright. I'll miss our morning laughs and I'll cherish the time that we worked together. Until we meet again.*

DS

“ I remember when I first met Johnnie about 3 years ago. I knew immediately he was a stand up person with the integrity and demeanor that would make him an asset to our organization. I was more intrigued with his hunting stories and camouflage attire than I was with his experience as an aluminum fabricator. CRA will miss Johnnie, the employees will miss Johnnie but no-one will miss him more than I will, not because he was a valued member of the team, which he was, but because he was a valued friend and comrade and he and I shared so much in common and I enjoyed our time together.

*I will miss our talks, our sharing of ideas, our sharing of hunting stories and most importantly, I will miss him as a close friend.*

*May he rest in peace and know he will be sadly missed.*
