January 4, 1920 - April 2, 2020

We knew her best as Juanita and what a loving caring person she was. She will be sadly missed by her 4 daughters, their spouses, her grandchildren, great grandchildren and great great grandchildren. Juanita started working very young, watching children and ironing after school to her successfully managing 2 restaurants and she was also a "Rosie the Riveter" during WWII. She is preceded in death by the love of her life, her husband Rudy Puster. Mom/ Grandma/Great and Great Great Grandma we will certainly miss you. Thank you for all the wonderful memories you have given to each and every one of us. Rest in peace Memaw, you have certainly earned it. We love you!

“ *I miss her deeply. I remember when I was young watching her getting ready to go to work and I would be so sad because I didn't want her to leave. I would watch her put her makeup on and when she was finished she would blot her lipstick with a tissue. Then she would hand the tissue with a perfect lipstick kiss on it to me. I would watch with tears in my eyes through the picture window holding that tissue as she drove up the street to go to work. I just didn't want her to go. I feel the pain of her leaving again but at the same time I'm glad she is no longer suffering. Just as I looked forward to her returning from work I look forward to seeing her again. Mom was truly a loving, kind, caring and hard working mother who was always ready to give us a helping hand before we could even ask. I'm so grateful we had her for as long as we did. I'll love her forever.*

“ When mom told us that we could write a memory that we had of Grandma the first thing that came to my mind, as it came to my sisters as well, was grandma's laugh.

She had a wonderful laugh and when she found some thing that she thought was very funny she would get this contagious laugh. It would make everybody else laugh hard. And then we would all be crying because we were laughing so hard. You didn't even have to know why you started laughing you were just crying because you were laughing so hard! I will always remember her laugh. She has passed that down to all of us. We all do it! That is a part of grandma that we will always have. Memories of jelly pancakes that you continued to make for us, your ability to peel an apple skin in one piece, baking apple pies and grape pies, your love of apricot jam in thumbprint cookies and the smell of green peppers will always be with me! I love you dearly grandma. I will miss you terribly!💔

“ I always enjoyed my visits with her when she would come out of her room I was there visiting she would see me curling toes up and she would comment that should curl your toes up so I don't run them over. That was our running joke with one another.
