“ I thought I posted this already, but my name's AJ. Roberts and I'm his stepson, we had many great times we had. But the best memory I remember was when we were fishing and we had caught a lot of fish. We were living in Georgia and the park ranger came out after us and told us we had to go home, we couldn't we had to and better not have any small fish? And we both laughed to went home and had a Fish Fry.
