“ *My dearest Aunt Leslie.*

What a life she lived — full of music, laughter, and love for the people and places around her. Hearing of her passing brought real sadness, even after a long illness for her, and I find myself thinking of all the moments she made more beautiful simply by being in them. All the family parties in Rhode Island, summer at Snug Harbor. And I still have the stuffed animal she made me for my birthday when I was little, it is one of my most favorite possessions.

The image of her playing harp at family gatherings, all the weddings and church events she did with family, captures everything that made her so special. She had a rare gift for finding and creating joy through music.

I hope the memory of her vibrant spirit brings my cousin and family some peace and comfort during this time. She will truly be missed.

*With love and sympathy,
Janet Ryan*
