“Liam, I miss you. There is a hole in my heart where you belong. Your short life has forever changed me. I love you.

“Liam came into my life the evening his was born and brought into the NICU. A TRUE warrior he was. I fell in love with him and his family. Their love and strength through it all was amazing. When I heard he was coming back in I had to be with him again. The light blue light in his window will shine forever. The time was too brief but I will carry his memory for a lifetime. I love you Liam
