“ *Linda I will truly miss you our friendship of 30 yrs has meant so much to me. You were one of the first people who made me feel welcome at Betty Tackett. Phil, Cathy, Delores and Dinorah may you find comfort in knowing that Linda was an amazing and special person and touched so many people in so many ways --she will never be forgotten. As each day passes I continue to recall so many memories of our times together---Linds you still make me laugh and smile. We were a great team all those years Triz and Riz forever!!!*

“ *I worked with Linda from the time she started working for the School System at Betty Tackett until she left Oak Park. She at first struck me as being so beautiful and reminded me of the actress who played the part of "Linda" on the TV show Dallas! She was more than just pretty but had such a kind and caring heart that she shared with her friends and all of the students. Please accept my sympathy in your loss of Linda. She was so very special.*

“ *Linda was such a warm, genuinely kind person with a loving soul. I met her in some of my darkest hours at the Mom's Support Group. She continues to help me and her memory is an inspiration. While I know she is deeply missed here on Earth, especially by her family, I hope there is some solace in knowing she is with her son again. My condolences.*

“ I worked a short time with Linda in the 1990's at Betty Tackett/Student Center. She was personable, friendly and helpful and always brought a sense of calm and reason to the frenetic pace of that school's environment. Although that was the 90's I never forgot her. I am sorry for the family's loss. John Marggraf

Linda was the first person I met & the first friend I made when I moved to Sarasota 46 years ago. We packed up the children & went to the beach almost every day...Playpens & all.. Our lives went in different directions & we lost touch...Reconnecting several years ago, it was as if no time had passed.

Linda was truly a beautiful person inside & out. I will miss you in my life & always keep you in my heart
