“ *Dick always kept me busy with lots of requests for every kind of imaginable information, as he and his department were always searching out for patents, rare research, interesting new ways to do things, etc. So he kept me on my toes and my skills sharp!*

I send sincere condolences to Joan and the entire family.

“ I was Mr. Rauschenberger's administrative assistant at Hollister Incorporated in Libertyville, IL until he left. He was always a kind and gentle man and I was a young widow when I came to work there. He was always considerate and had wished to "lighten my load" with the computer, since I was fairly 'savvy' with it and was asked my many in the department to help with their computer problems or programs. He asked me to install Dragon Speak on his computer and familiarize him with it.

As you can guess from the way our phones sometimes interrupt the spoken word, we got some funny responses from the program, but it was 'teachable'. For instance his name until we could teach the program the correct spelling came out as 'Raw Hamburger'.

I continued to correspond with Mr. Rauschenberger and wife Joan via email. I even had an occasion to bring food to their house when Dick had taken Joan to Mayo to fix her shoulder. He teased that Joan was bionic and that the screws in her shoulder had loosened. He joked that if he knew that was the problem, he would have taken a screwdriver to help her out himself.

I will miss his gentle humor. Please know that my thoughts and prayers are with your family at this difficult time. Stephanie Cruz
