“ *My husband Peter and Tal were friends a long time before I met Tal. They shared a love of the shore andoysters. I remember seeing his eyes light up after digging up a large basketful at Indian Neck beach. Tal was a beautiful man both inside and out. Quiet, caring and fun. I will miss him and all the wonderful Wellfleet times we all shared,*

“ *In a simple word Tal was a gentleman! My wife Jackie and I met Tel and Bonnie through our shared love of water gardens while members of the Seacoast Water Garden Club here in New Hampshire. Tal and I dug holes and moved plants around where our wife's told us to. We smiled at each other, did as we were told, and then basked in glory of our wife's design and vision. I remember the tree people faces he delighted in showing. The beautiful waterfall and outside fireplace. Tal generally quiet and always helpful with his time and advice. The world would be a much better place with more men like Tal. We will miss him.*

“ For the past several years my wife and I have had many occasions to enjoy Tal and Bonnie's company over drinks and a meal.

On one of those occasions Tal introduced me to what seemed to be his drink of choice, a very nice spiced rum on ice called George Ocean Spiced Rum. We both agreed that it had a nice vanilla flavour to it and it has become one of my favourite drinks of choice.

On another such occasion Tal and Bonnie were at our place for a dinner of burgers. There was a variety of burgers including lamb burgers which Tal thought he would enjoy. As we grilled the burgers we lost track of which burgers were lamb. As it turned out Tal was the only one who didn't get a lamb burger so we both blamed "George" for the mix up.

Karen and I have been reminiscing of Tal all week, we will miss his wit along with his kind, gentle and caring demeanour. We are very fortunate to have been acquainted with Tal, our lives have been made better knowing him as a neighbour and friend.

Bonnie, Matt and Tim please know that you are in our thoughts.
