“ Taylor was my adopted Son! I raised him as my own. He was taken into my family as my own. He was a very smart kid and full of promise! You did go through tough times! I did the best I could to help him. And his mom! For whatever reason today I was working and everything that we have been together him growing up and all that and taking a microwave oven apart to figure out how it worked. Or a toaster oven! He did figure it out he was a smart kid he did have a loving family. And today at work for whatever reason flashbacks came into my head of TK! Good times with my son. I do miss him very much every day! Father's Love for A sons passing you are missed TK!
