“Dad, I miss you so much. You really were always there for me and not having the ability to even just talk to you really, really hurts. Like physically. I have never felt this before, and I now understand what happened to you when grandma/grandpa passed. I realized that you were about my age when you lost your father and I never understood what pain you were going through and even more so when grandma passed. I understand now and I'm sorry I wasn't there for you more. I'm sorry I let things get in the way. I had been angry for a while because it felt like you stopped trying to get better and it affected our relationship. I thought we had more time. I really did. All you wanted was to spend time with me and my hard-headedness got in the way and I will have to live with that for the rest of my life. It's getting harder and harder every day, but I hope that you are watching over me. I hope that you are happy, healthy and thriving. I hope that you are with your mommy and daddy. I wish that I could be with mine and I hope one day I will be. I love you. 💕💕

“ *The first time mum and I saw you, you were playing horseshoes with Uncle Ray in the back yard, we both stopped and stared, you were the image of Grandad Pestill, not only in looks but his mannerisms, his kindness and his empathy to others, you were/are a beautiful soul John and I shall carry that with me forever*
I'm finding it hard to believe you have left us, my heart is broken, my tears will not stop falling, I will love you forever John
