“ *Judy and family - my heart is broken. Willie was such a fun person to speak with and I always felt the love he had for all of the family. Ever since you moved to Florida; I enjoyed and looked forward to our banter especially about Willie wearing shorts all the time and us northern's wearing long pants and being all bundled up. This should have been Willie's time to enjoy golf with his brother John and enjoy retirement. May Willie's warmth and warm smile always provide comfort and fond memories. Saying a few more prayers than usual for you & your family especially during Thanksgiving - sharing thanks for the times we all had with Willie, Paul*

“ You will always be in my heart. I need time to heal but will always have fond memories of my Brother and how we grew up together. You were always generous with your love and kindness, here with your Great Nephew, Caleb in 2015.

“ I'm so sorry to hear about Willie's passing. I worked with him starting in '99 at JCI, though FTG where we worked together very closely. He was always a good friend, and colleague. He will be greatly missed.

“ We are very sorry to hear of William's passing. Having known William for some time, it was always a pleasure to get together and enjoy a round of golf or a good meal. He was a generous and good-hearted person who always treated others with consideration and respect. He also had a wry yet subtle sense of humor, that one might miss if not paying attention. I'm glad I had the chance to travel with him and his brother John on several relaxing winter golf vacations.

To his family and siblings, we offer our deepest sympathy for your loss.

“ Only met Willie less than 2 years ago when I started working on his team at IPC. He was assigned the task of getting me access and familiar to IPC systems and his patients, knowledge, and his gift to teach will always be appreciated. If all of us at IPC had someone like Willie to assist us with our current transition, we would all be much better place as he is now. May God bless and give you comfort. Rick C.

“ Judy, Matt and Gabe, Paul and were so sad to hear of Will's passing. As a relative newbie in the Telecommunications field in the early 90s' at JCI, I have so many funny and happy memories of Willie. Late night cutovers in dreadful basement pbx rooms, lunches at Kingston Deli, him sitting behind me in the office on Milk St while I struggled with learning Call Center programming. He refused to carry any tools... he would say something like 'My mind is the only tool I need!' and he meant it!! He was intelligent, patient, kind, funny and a good friend. He will be missed. Love, Judy B
